## SEND YOUR PATENT BUSINESS DIRECT TO OTTAWA

The Patent business of Canada naturally centres in Ottawa. Here are the records of the Patent Office, and here is its examining corps, before some one of whose members all Applications for Letters Patent must pass for review and criticism. That such application may be facilitated and much time saved by the employment of competent attorneys on the ground with ready access to the Patent Office for personal oral discussion of cases with the examiners and prompt filings of amendments and other documents, is obvious. This is admitted by all the large firms located in other cities, practically all of whom are represented in Ottawa, and that inventors have come to see the great advantage of sending their cases direct to Ottawa, avoiding the delays and occasional misunderstanding, incident to passing the case, and amendments through two or more Attorney's offices, is abundantly shown by the large number of applications filed directly through Ottawa Patent Attorneys.

**SEND FOR OUR BOOKLET "REFERENCE GUIDE FOR INVENTORS"**

Being located only a few doors from the Patent Offices, we are in the best position to give you valuable assistance in securing your Canadian Patent. We assure you that in placing your Invention in our hands, it will receive prompt and competent attention. The policy of this firm is to give the best satisfaction possible to our clients.
